

NEWSLETTER NO. 22

NOVEMBER 1985

---

Hi,

Last month was the Annual General Meeting (the first one we have had in twenty one months of operation) and it was held in near darkness. Unfortunately, soon after we started arriving at the hall, the power went off, and we were left with the light of a small fluorescent, and a spotlight powered by Chris's car through the window.

The meeting went very well. Seven committee members were elected. The committee won't know itself. Those elected were:

|              |                     |
|--------------|---------------------|
| Andy Russell | President           |
| Nola Huggins | Secretary/Treasurer |

and the following were elected as committee members:-

Mark Langdon  
David Donaldson  
Peter Hoyes  
Chris Bishop  
Ross Kay

It was agreed at the meeting that a copy of the constitution be published in this next newsletter, and that a copy be given to every new member joining our group.

It was agreed by all that subscriptions would not be raised at least before the next Annual General Meeting, which will be held in March 1986. It was further agreed that the new committee members would remain in force until the March 1987 Annual General Meeting.

A balance sheet was presented and a copy of this is enclosed in this newsletter for our country members.

The meeting ended very early - and the power came back on around 10 p.m. which meant that the new committee was welcomed over a cup of black coffee (the dairy having shut because of the lack of power).

SUPER CHESS

---

Andy was trying to fix this program, but it proved to be more bother

than it is worth. The title page is a bit strange, but this doesn't affect the game in any way. This version of Chess is extremely good, both Andy and myself will vouch for it.

## TOOLKIT

---

This program is now available on eprom direct from Modec Instruments Ltd, 16 Hudson Avenue, Upper Hutt, for the sum of \$45.00.

For your \$45.00 you get two eproms containing the program, and an 11 page set of comprehensive instructions. Toolkit is a program designed to enable you to write, execute and debug machine code programs, copy Colour Genie tapes and analyse and alter machine code written by others. It is a machine code monitor program with 26 commands available.

To get Toolkit working, you will need a rom board (the group sell them at \$55.00 each).

Some of the commands available with Toolkit are:-

| COMMAND         | SYMBOL | ROM No | DESCRIPTION                                    |
|-----------------|--------|--------|--|
| BreakPoint      | @      | 2      | Set breakpoint at specified address            |
| Ascii           | A      | 1      | Dump memory in ascii format                    |
| Binary          | B      | 2      | Maths & hex/dec/binary convertor               |
| Cancel          | C      | 1      | Cancel printer                                 |
| Dump            | D      | 1      | Dump memory in hex format                      |
| Edit            | E      | 1      | Write & alter programs in RAM                  |
| Find            | F      | 1      | Find specified byte                            |
| Goto            | G      | 1      | Transfers control to anywhere in memory        |
| Hunt            | H      | 1      | Locate specified 16 bit address                |
| Input/init      | I      | 1      | Input from port/ Initialise TOOLKIT            |
| Jump Calculator | J      | 1      | Calculate relative jump displacements          |
| Keyread         | K      | 1      | Write text into memory                         |
| Load            | L      | 2      | Load system/ basic tapes                       |
| Move            | M      | 1      | Move any memory block without overlap          |
| Output          | O      | 1      | Output to port                                 |
| Place           | P      | 2      | Place a tracepoint                             |
| Quit            | Q      | 1      | Quit to basic                                  |
| Redefine        | R      | 2      | Redefine user area                             |
| Symbol          | S      | 1      | Symbolic dump (disassembler)                   |
| Trace           | T      | 2      | Trace operation of a program                   |
| User            | U      | 1      | Activate user routine                          |
| Verify          | V      | 1      | Compare two blocks of memory                   |
| Write           | W      | 2      | Write Genie/TRS-80 system tape                 |
| Exchange        | X      | 1      | Swap two blocks of memory                      |
| Y command       | Y      | 1      | Turn printer output on                         |
| Zero            | Z      | 1      | Fill any block of memory with a specified byte |

Anyone who is getting into, or has got into, machine code programming, could really use this program. It looks to be much easier to use, and more versatile than Zen or any of the monitors we have.

This program will not be available through the Users Group. It would cost us just as much as Modec Instruments to produce it and pay royalties, so please send orders direct.

#### XMAS NEWSLETTER

-----

Next month will be the last newsletter before Xmas, therefore, it will be thicker than usual, with a lot more programs being published so that you will all have something to do over Xmas.

We have a couple of programs that are about 5 or 6 pages long - you can either type them in, or purchase them from us at \$3.50 each.

#### NEW MEMBER

-----

We welcome the following family to our Group -  
SPICK family, 11 Racecourse Parade, Avondale

Our next meeting is on Monday the 11th of November, 1985, at 7.30 p.m.  
We look forward to seeing you all.

- Nola Huggins

CONSTITUTION for AUCKLAND COLOUR GENIE USERS GROUP

---

1. There shall be a non-profit making organisation to be known as THE AUCKLAND COLOUR GENIE USERS GROUP afterwards referred to as the organisation.
2. The aims of the organisation will be the sharing of knowledge on the Colour Genie computer, distribution of software and hardware for the Colour Genie, and such other activities as the members decide.
3. An Annual General Meeting will be held in March each year, and Special General Meetings may be held with three weeks notice in writing. Normal meetings shall be held as the committee determine.
4. There will be three classes of members - full members (which will include all members of a family group), country members (where the member lives outside the greater Auckland area) and student members (where the member is engaged in full-time study).
5. A quorum shall consist of 30% of the total of full members and student members.
6. A committee shall be elected at the Annual General Meeting and must contain a Chairman, Secretary/Treasurer, and between three and six other members. The Chairman and Secretary/Treasurer shall be elected by the meeting.
7. Non-committee members may be appointed to fulfill other tasks as the committee shall decide.
8. The committee may be given power to co-opt members to the committee by a vote at a normal meeting of the club if a quorum is present with a 75% majority vote.
9. The organisation shall operate such bank accounts as the committee shall determine. All accounts must have at least three signatories, with any two to sign.
10. The financial records of the organisation will be available for inspection by members at reasonable notice.
11. The financial records will be audited before the Annual General Meeting for presentation at the meeting and a financial statement will be distributed to all members.

12. Subscriptions will be set by the members either at the Annual General Meeting, or at a Special General Meeting.
13. In the event of an Annual General Meeting or a Special General Meeting voting to wind-up the organisation, the realisable assets will pass to a similar computer-based non-profit organisation which will be decided by the meeting.
14. The policy of the organisation with regard to software sales will be that the only warranty is on the quality of the medium used and the quality of the recording.
15. Any changes to this constitution may be made at an Annual General Meeting or a Special General Meeting by a majority vote of the people present.
16. The balance date shall be the 31st of January.

AUCKLAND COLOUR GENIE USERS GROUP

STATEMENT OF ACCOUNT - 1 MARCH 1984 TO 1 OCTOBER 1985

Deposits:-

|   |            |
|---|------------|
| Subscriptions paid to us over 2 years     | 3150.00    |
| Sales of software and hardware            | 15435.81   |
| Commission on Genie Sale at Computer Show | 95.00      |
| Ad placed in our newsletter               | 10.00      |
|   | -----      |
|   | \$18690.81 |

Less Payments:-

Administration Costs:-
